United Way of Midland & Odessa – Community Needs Assessment

Survey Methodology[1]

From August 5 to 31, 2026, Probolsky Research conducted a telephone and online survey among residents of Martin, Midland, Upton, Crane, Ector, Brewster, Jeff Davis, Loving, Pecos, Reeves, Terrell, Ward, and Winkler Counties.

A total of 600 residents were surveyed (197 by telephone, 403 online). A survey of this size yields a margin of error of +/-4% with a confidence level of 95%. For the online phase, we invited participants via mail (2%), email (49%), and text message (49%) to access the survey by computer, tablet, or smart phone. Phone participants were interviewed by landline (25%) and mobile (75%) calls.

Respondents chose their preferred language, English (88%) and Spanish (12%). Security measures precluded individuals from completing the survey more than once.

The sample was developed from consumer data. Probolsky Research applied a stratified random sampling methodology to ensure that the demographic proportions of survey respondents match the demographic composition of Martin, Midland, Upton, Crane, Ector, Brewster, Jeff Davis, Loving, Pecos, Reeves, Terrell, Ward, and Winkler Counties.

Probolsky Research is a Latina and woman owned market and opinion research firm with corporate, election, government, nonprofit, and special interest clients.

[1] Due to rounding, totals shown may not add up to 100%.

Project:	United Way of Midland & Odessa - Community Needs Assessment
Field Dates:	August 5 - 31, 2026
Universe:	Residents of Martin, Midland, Upton, Crane, Ector, Brewster, Jeff Davis, Loving, Pecos, Reeves, Terrell, Ward, and Winkler Counties
Language:	English and Spanish
N:	600
Margin of Error:	+/-4%

United Way of Midland and United Way of Odessa asked us, Probolsky Research, to conduct this survey to better understand the needs of residents and identify where community investments can have the greatest impact over the next several years. Your responses are confidential and will help local nonprofit organizations improve programs and services.

1. Overall, how would you rate the quality of life in your community?

Excellent [NET]	**23.3%**
Excellent	*4.3%*
Very good	*19.0%*
Good	**35.2%**
Poor [NET]	**39.5%**
Fair	*28.8%*
Poor	*10.7%*
Unsure	**2.0%**

2. In your opinion, what are the biggest challenges facing your community today? Select up to three.

Cost of living	**49.7%**
Affordable housing	**33.0%**
Crime and public safety	**18.5%**
K-12 education	**14.5%**
Services for seniors	**12.0%**
Access to healthcare	**11.2%**
Substance use and addiction	**11.2%**
Mental health services	**10.3%**
Homelessness	**9.5%**
Youth violence	**9.5%**
Good-paying jobs	**9.0%**
Affordable childcare	**8.7%**
Food insecurity	**7.8%**
Services for people with disabilities	**6.2%**
Family stability	**5.2%**
Transportation	**4.8%**
Veteran services	**4.3%**
Financial literacy	**3.3%**

Early childhood education	**3.0%**
Domestic violence	**3.0%**
Workforce training	**2.2%**
Access to internet	**0.3%**
Digital access	**0.3%**
Other	**6.8%**
Nothing	**1.3%**
Unsure	**0.5%**

3. Thinking about the next five years, which areas should receive more community investment? Select up to three.

Affordable housing	**32.0%**
Healthcare access	**16.3%**
Mental health counseling	**14.2%**
Job skills training	**12.8%**
Senior services	**11.8%**
Homeless services	**11.3%**
Affordable childcare	**11.0%**

Question: Thinking about the next five years, which areas should receive more community investment? Select up to three.

Answer: Not answering this. Because this, is looking at it from the wide end of the telescope, instead of the narrow end to see the big picture, to try to find opportunities for all. If you are having to limit things to the "big three or five", then everyone is playing "lifeboat" cruelly with the rest of the needy. The reality is, you find methods and people and directors and independent people with a passion for each or two or at most three and cut them loose to salvage those people or things come what may or die trying through volunteerism, grants, charities, donations, programs, start, up original programs or charities to fit the need, and never ever say any need is too small or not important enough to allow it to fail or fall through the cracks.

Female, 50-64, Latino/Hispanic, College, Ector, 11-19 years, Rent home, No children in home, $50,000-$74,999, English spoken at home, Employed by someone else, 1 household size, Text, English

Question: Which populations currently have the greatest unmet needs in your community? Select up to three.

Answer: Again, not answering this. I ran six ministries in 37 years and I dealt with every single issue in this list, and sadly a lot of things you don't even have on here, which says so much about not being in touch with the need with the people on the street and everyday needs. Seriously, this shouldn't be done with technology. It should be fone in hospitals, behind convenience stores and Walmart's and underpasses where homeless live, door to door where mamas and daddy's can't take care of their kids and wives get beat not because their husbands hate them but because he can't deal anymore and thinks he's losing his mind and has forgotten she's his best friend and the love of his life. Your missing your call. But, at least your trying. Thank you.

Female, 30-39, White/Caucasian, College, Midland, 20+ years, Own home, No children in home, $75,000-$99,999, English spoken at home, Employed by someone else, 1 household size, Email, English

Question: What is one community need that is not receiving enough attention in your community?
Answer: High costs of everything

Female, 18-29, White/Caucasian, College, Midland, 20+ years, Own home, No children in home, $75,000-$99,999, English spoken at home, Employed by someone else, 2 household size, Landline, English
Question: What is one community need that is not receiving enough attention in your community?
Answer: Support for those living with addictions. I've noticed had experience with myself and friends who have been suspected of having an addiction when it was not true, but more importantly, I feel that addicts are usually self-medicating and need help, not condemnation. I'm sure they are difficult to work with and treat, but they are human beings who deserve compassion just like any other.

Prefer not to answer (Gender), 40-49, Latino/Hispanic, College, Midland, 20+ years, Own home, No children in home, Over $150,000, English spoken at home, Chinese spoken at home, Employed by someone else, 2 household size, Landline, English

Question: If United Way could make one major investment in your community over the next five years, where should it invest?
Answer: There are so many needs in our community and world, but I believe helping those who are outcasts is so very important. It is so sad to see those with mental health disorders including those who are addicted would be absolutely life changing. Even our beloved pediatrician in another city succumbed to addiction and lost his license. It is a horrible and destructive condition.
